

Corporate Finance Manager – Burnham RNG

Burnham RNG (<http://www.burnhamrng.com>) Burnham is a wastewater to RNG provider that helps businesses and municipalities profitably reduce treatment & disposal costs, improve environmental outcomes and re-use energy, water, and nutrients. The company is focused on efforts to turn waste into valuable resources. Burnham manages and reuses organic waste and wastewater by transforming it into renewable natural gas, clean water, and high-value soil additives that enhance sustainability and profitability.

Burnham is a portfolio company of Ares Management Corporation.

The company builds/acquires, owns, and operates renewable natural gas (RNG) producing facilities with the mission to build tomorrow's resource recovery infrastructure today.

By marketing and selling RNG and capturing associated tax benefits, the company can significantly reduce the cost of wastewater treatment and disposal for communities while improving environmental outcomes.

To accomplish our mission, we are looking to build and grow a cohesive team in an execution-oriented culture. We have created the following cultural markers and strive to hire like-minded people to help fuel our growth.

We are HUMBLE...we take pride in the quality of our work, but recognize it can always be improved with the input of others.

We are DISCIPLINED...we strive for systemic, disciplined, consistent execution in everything we do.

We are ANALYTICAL... we need team members who come to conclusions using logic, data and math.

We are ENTHUSIASTIC...we care deeply about the outcomes of our work.

We are PROBLEM SOLVERS...we don't have all the answers. We need team members to take the initiative to figure it out.

We are FUN...we love what we do and love coming to work each day.

We are seeking a Corporate Finance Manager, who will play a crucial role in supporting the financial planning and analysis function of the company. This position requires strong analytical and modeling skills, as well as the ability to provide valuable insights to drive strategic decision-making. The successful candidate will be responsible for managing the monthly financial planning and analysis model, building and maintaining project investment and financial models, and contributing to building long-term enterprise model for board discussion materials. The Corporate Finance Manager will report directly to the VP of Finance.

This position is based in Arlington, VA and if needed, relocation support is available.

In this position, you will...

- Own business processes to systematically and reliably report out company financial outlooks incorporating projects in the operation and development pipelines

- Work with the development team to maintain project development budget and forecasts in various development stages
- Assist in overall business financial planning & analysis and cashflow management activities.
- Maintain periodic reports highlighting market comparable, key industry activity, acquisition targets, key commodities, and macroeconomic indices.
- Prepare and present financial reports and presentations to senior management and key stakeholders, conveying complex financial information in a clear and concise manner.
- Build and maintain project investment and financial models to support capital allocation decisions and evaluate the financial feasibility of potential projects or investments, M&A activity, including framing the analyses for use in presentations to management team, the board of directors and future investors.

In this position, you will gain:

- Opportunity to join a high-growth start up from the ground up as a critical member of a team growing and building a business.
- The expectation of 'closed deal' experience: team expects to develop, acquire, and achieve FIDs on multiple projects over the next three years.
- Cross-disciplinary participation: at this stage in company's growth, all employees 'do windows.' Exposure to project development, commodities markets, M&A, corporate finance, and fundraising.
- Responsibility and job growth consistent with abilities; position could grow into a team leadership position as the company grows.
- Opportunity to be a part of a company culture that is fast-paced, disciplined, and execution-oriented, but also fun; we take time to celebrate our wins.

This position is well-suited for you if you:

- High comfort level to manage data extraction from various models and integrate reliably into a consistent corporate reporting system/tools;
- Strong financial modelling experience building three statement corporate financial models, project models, or acquisition models;
- Strong PowerPoint presentation skills; translating model outputs into executive-level deck including project-specific economic sensitivities; dreams in charts and slides.

In this position, we will need you to have....

- BA/BS required, with a preference for coursework in finance, economics, accounting, or related field.
- 3+ years prior experience in financial planning, accounting, or business reporting.
- Experience in energy especially renewable energy / energy transition preferred
- MBA or CFA certification preferred
- Ability to pass a comprehensive background check is required

Interested applicants should submit a resume to: christina@burnhamrng.com.
